NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended July 31, 2014 and 2013
(Unaudited and expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Cordoba Minerals Corp. (the "Company" or "Cordoba") is a Canadian based exploration and development company with exploration projects in Colombia. The principal business of the Company is the acquisition, exploration and development of precious metal properties. The Company was incorporated under the *Business Corporations Act* of British Columbia on October 20, 2009. The address of the Company's corporate office and principal place of business is 181 University Avenue, Suite 1413, Toronto, ON, M5H 3M7. The Company's registered address is 650 – 200 Burrard Street, Vancouver, BC, V6C 3L6.

The Company has interests in resource properties which it is in the process of exploring and has not yet determined whether these properties contain reserves that are economically recoverable. The recoverability of resource properties, including capitalized exploration and evaluation expenditures, is dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of the resource properties, and upon future profitable production or proceeds from the disposition thereof.

The Company's condensed interim consolidated financial statements are prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes that the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. For the period ended July 31, 2014, the Company incurred a net loss of \$3,163,071 (July 31, 2013 - \$600,180), had a working capital balance of \$7,114,540 as at July 31, 2014 (April 30, 2014 - \$8,821,533), and an accumulated deficit of \$12,194,668 as at July 31, 2014 (April 30, 2014 - \$9,031,597). These circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern.

The Company will continue to pursue opportunities to raise additional capital through equity markets to fund its exploration and operating activities; however there can be no assurance that such financing will be available on a timely basis and under terms which are acceptable to the Company. These financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustment could be material.

2. BASIS OF PREPARATION

The Company prepares its unaudited condensed interim consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") which the Canadian Accounting Standards Board has approved for incorporation into Part 1 of the Handbook of Canadian Institute of Chartered Accountants, as applicable to the preparation of interim financial statements including IAS 34. These unaudited interim financial statements do not include all of the disclosures required for annual financial statements and hence should be read in conjunction with the Company's annual consolidated financial statements for the year ended April 30, 2014. These unaudited

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

condensed interim consolidated financial statements follow the same significant accounting policies as those included in the Company's most recent annual consolidated financial statements, except as described in Note 3 herein.

These unaudited condensed interim consolidated financial statements were approved by the board of directors on September 24, 2014.

3. CHANGES IN ACCOUNTING POLICIES AND NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

a) Changes in Accounting Policies

Except for the changes noted below, the Company has consistently applied the accounting policies set out in Notes 3, 4 and 5 of the Company's audited annual consolidated financial statements for the year ended April 30, 2014 to all the periods presented in these unaudited condensed interim consolidated financial statements.

The Company has adopted the following new and revised standards, along with any consequential amendments, effective May 1, 2014. These changes were made in accordance with the applicable transitional provisions. The nature and effect of the changes are explained below:

- i) IAS 32, *Financial Instruments: Presentation* ("IAS 32") has adopted amendments to IAS 32, effective January 1, 2014, which clarifies some of the requirements for offsetting financial assets and financial liabilities on the consolidated statement of financial position.

The changes to IAS 32 did not result in any adjustments to the Company's financial statements on May 1, 2014.

- ii) IFRIC 21, *Levies* sets out the accounting for an obligation to pay a levy that is not income tax. The interpretation addresses what the obligating event is that gives rise to pay a levy and when should a liability be recognized.

The Company adopted IFRIC 21 on May 1, 2014. The change did not result in any adjustments to the Company's financial statements on May 1, 2014.

b) Standards, Amendments and Interpretations Not Yet Effective

The following revised standards and amendments, unless otherwise stated, are effective on or after January 1, 2015 with early adoption permitted and have not been applied in preparing these unaudited condensed interim consolidated financial statements. Management has not yet considered the potential impact of their adoption and does not plan to adopt these standards early.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended July 31, 2014 and 2013

(Unaudited and expressed in Canadian Dollars)

- i) IFRS 9, *Financial Instruments* (“IFRS 9”), replaces IAS 39, *Financial Instruments – Recognition and Measurement* (“IAS 39”) and some of the requirements of IFRS 7, *Financial Instruments: Disclosures* (“IFRS 7”). The objective of IFRS 9 is to establish principles for reporting of financial assets and financial liabilities in respect of the assessment of the amounts, timing and uncertainty of an entity’s future cash flows.

IFRS 9 is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.

- ii) IFRS 15, *Revenue from Contracts with Customers* (“IFRS 15”) replaces IAS 11, *Construction Contracts* (“IAS 11”), IAS 18, *Revenue* (“IAS 18”) and some revenue-related interpretations. The objective of IFRS 15 is to provide a single comprehensive revenue recognition model that applies to contracts with customers using two approaches to recognizing revenue – at one point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of the revenue recognized.

IFRS 15 is effective for annual periods beginning on or after January 1, 2017 with early adoption permitted.

- iii) Amendments to IAS 16, *Property, Plant and Equipment* (“IAS 16”) and IAS 38, *Intangible Assets* (“IAS 38”) – Clarification of Acceptable Methods of Depreciation and Amortization.

The amendments to IAS 16 and IAS 38 are effective for annual periods beginning on or after January 1, 2016 with early adoption permitted.

There are no other IFRS or IFRS Interpretations Committee (“IFRIC”) interpretations that are not yet effective that would be expected to have a material impact on the Company.

San Matias Project – Colombia

On March 28, 2014, the Company acquired 89% of the issued and outstanding shares of Cordoba Holdings Corp. (“CHC”), to bring the Company’s initial 11% ownership of CHC to 100%, and acquired 100% of the issued and outstanding shares of Sabre Metals Inc. (“Sabre”) (together, the “Acquisition”). As consideration, the Company issued 14,749,719 post consolidation common shares (see Note 7(a) for share consolidation) to CHC’s shareholders in proportion to their respective shareholdings in CHC and paid \$5,532,000 (US\$5,000,000) in cash to Minatura International LLC (“Minatura”), one of the shareholders of CHC, and issued 13,110,861 post consolidation common shares to Sabre’s shareholders in proportion to their respective shareholdings in Sabre. The Company also issued 1,058,824 and 941,176 post consolidation share purchase warrants to the shareholders of CHC and Sabre, respectively, with each warrant exercisable at \$0.60 and expiring March 28, 2016. Certain of the common shares are subject to an escrow agreement (Note 7). As part of the Acquisition, the original shareholders of the Company retained 15,939,131 post consolidation common shares of the Company.

The Acquisition is considered to be outside the scope of IFRS 3 *Business Combinations* since CHC and Sabre operations do not meet the definition of a business, and as such, the Acquisition was accounted for as an asset acquisition.

Guadalajara Project – Colombia

Pursuant to an agreement signed in April 2014, the Company acquired the rights to the Guadalajara Project located in the Department of Cordoba, Colombia, by making a cash payment of \$54,945 (US\$50,000) to the property optionor (the “Optionor”) and committing to spent US\$250,000 on exploration within one year. After completion of the exploration expenditures, the Company will be granted the option to acquire a 98% interest in the Guadalajara Project, which may be exercised by completing the following:

On the completion of a feasibility study, the Optionor will have the right to sell their remaining 2% stake in the Guadalajara Project for US\$5.00 per ounce of gold and US\$0.035 per pound of copper for such metals that are in the Measured and Indicated category of the NI 43-101 resource calculation. The Optionor will maintain 100% of the coal rights on the property.

7. SHARE CAPITAL

In May 2014, the shareholders of the Company approved a consolidation of the issued shares, stock options, warrants and compensation options outstanding at May 22, 2014 on a one new for two old basis. As a result, the Company's issued shares were reduced to 58,812,103.

The fair value of the 656,400 post consolidation compensation options was calculated to be \$633,557, using option pricing models with the following assumptions: risk-free interest rate of 1.07%, dividend yield of 0%, volatility of 95% and expected life of 1.5 years. Additional share issuance costs consisted of agent expenses totaling \$111,310.
